GitHub: github.com/AmaanSha8805
Portfolio: iamamaan.netlify.app

**Java • Spring Boot • React • Next.js • Python • FastAPI • PostgreSQL • AI Integration**

## PROFESSIONAL SUMMARY

Software Engineer and Full Stack Developer with hands-on experience building enterprise applications, AI-powered platforms, healthcare systems, and business management solutions. Experienced in Java, Spring Boot, React, Next.js, Python, FastAPI, PostgreSQL, Docker, and cloud technologies. Delivered multiple production-ready applications for real clients and developed scalable software solutions across healthcare, fitness, enterprise operations, and AI-driven platforms.

## TECHNICAL SKILLS :

| Programming Languages: | Frontend | Backend | Database Technologies: | Software Engineering: | AI & ML: | Tools & Platforms: |
|---|---|---|---|---|---|---|
| Java | React.js | Spring Boot | PostgreSQL | Object-Oriented | LLMs | Postman |
| Python | Next.js | FastAPI | MySQL | Programming (OOP) | Prompt Engineering | IntelliJ IDEA |
| JavaScript | React Native | Express.js | SQLite | SDLC System Design | RAG | N8N |
| TypeScript | HTML5 | REST APIs | SQLAlchemy | Design Patterns | AI Agents | Maven |
| SQL | CSS3 | JWT Authentication | Prisma | Clean Code Principles | NLP | Flyway |
| | Tailwind CSS | API Development | Database Design | MVC Architecture | PyTorch | Swagger/OpenAPI |
| | | | Database Normalization | Agile Methodology | LSTM Models | Cursor |
| | | | | | | Antigravity |

## PROFESSIONAL EXPERIENCE

### Java Full Stack Developer Intern | Zidio Development | Jun 2026 – Aug 2026

Collaborated on the development of KEYSTONE, an enterprise field service management platform using Java, Spring Boot, React.js, TypeScript, and PostgreSQL.
Developed RESTful APIs, frontend modules, and business workflows supporting work-order management, technician assignment, and operational analytics.
Designed relational database schemas and participated in deployment, testing, debugging, and performance optimization

### Freelance Full Stack Developer | Self-Employed | 2024 – Present

Delivered 3 paid full-stack software solutions for clients in fitness and healthcare domains, managing complete project lifecycles from requirements gathering to production deployment.
Designed and developed frontend applications, backend services, database architectures, authentication systems, and RESTful APIs.
Collaborated directly with business owners and stakeholders to translate requirements into production-ready software solutions.
Deployed and maintained applications using GitHub, Vercel, Netlify, and Render.

### Software Engineer Intern | CerenMobile | Oct 2025 – Apr 2026

- Contributed to mobile application development using React Native, Android SDK, Java, Firebase, and SQLite.
- Integrated APIs, implemented UI enhancements, and supported testing, debugging, and deployment activities.
- Collaborated using Git/GitHub and modern software development practices.

## PROJECTS:

- **KEYSTONE – Enterprise Field Service Management Platform**

**Java 21, Spring Boot, React.js, TypeScript, PostgreSQL, Docker**

Developed an enterprise platform for work-order management, technician assignment, SLA monitoring, inventory tracking, and customer self-service operations.
Implemented secure authentication, role-based access control, analytics dashboards, and scalable REST APIs.

- **SKYRA – AI-Powered Career Development Platform**

**Next.js, FastAPI, PostgreSQL, Docker, Google Gemini AI**

Built an AI-powered platform for resume analysis, ATS optimization, skill-gap assessment, interview preparation, and career roadmap generation.
Integrated Generative AI to provide personalized recommendations and intelligent career guidance.

- **ASTRAA – Intelligent Climate Intelligence Platform (LIVE LINK : Astraa.in)**

**Next.js, Express.js, FastAPI, PyTorch, Three.js, TypeScript**

Developed a distributed climate intelligence platform featuring real-time weather monitoring, predictive analytics, anomaly detection, and 3D atmospheric visualization.
mplemented machine-learning forecasting using PyTorch LSTM models.

- **Aamdar Fitness Club Management Platform (LIVE LINK : Aamdarfitnessclub.in)**

**Next.js, PostgreSQL, Prisma, Razorpay, WhatsApp Automation**

Developed a commercial gym management system supporting 800+ members and used by 300+ users.
Implemented membership management, payment processing, AI-powered fitness guidance, WhatsApp automation, and business analytics dashboards.

## EDUCATION :

**Bachelor of Computer Science (B.Sc. Computer Science)**
**Yeshwant College of Information Technology**
**Swami Ramanand Teerth Marathwada University, Nanded**
**Graduation Year: 2026**

## CERTIFICATIONS

- **AWS Training and Machine Learning Certification**
